DETAILED ACTION

Allowable Subject Matter

1. Claims 1-39 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1-39 are allowable for the reasons discussed in applicant's arguments of 11/28/2005. Specifically that the prior art does not teach along with the other limitations of the claims, a device having both a projector disposed in an interior volume of itself along with a writing plane having holding means for securing a sheet of tracing paper. For example US 5,217,293 to Kobzeff teaches in figure 1 a platform where a piece of tracing paper can be applied, however no projector for projecting an image is provided. US 5,748,183 to Yoshimura et al. teaches in figure 1A a projection device that folds and includes a writing plane, however there is no means for attaching a piece of tracing paper to said writing means. US 5,100,325 to Cutler teaches a perspective drawing device, which includes means for attaching tracing paper (window 18), light source means 22 and image source (20), however said light source is not disposed within the interior volume of the device. It would not be obvious to modify any of these or other prior art to obtain the claimed invention, as they would all require modification beyond the scope of their original purposes and the only motivation would be impermissible hindsight.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
